HDclearTM
high definition decorative film

Perfect for seasonal promotions and regional marketing

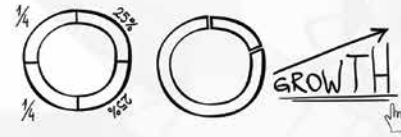

HDClings can be printed with color (CMYK) and white inks and makes it an ideal alternative for static cling graphics. Perfect for seasonal, promotional and regional marketing efforts where re-using graphics is more economical. Easily installed with water and a shower squeegee this product can lay perfectly on the glass. After the promotion has passed it can be rolled back up and used again.

These are just some of the brands we work with:

CONVERSE

Hertz

Great whiteboard product for conference rooms

Meeting attendees can put these clings on the outside of the conference glass. Clings could be a financial form, checkoff sheet or corporate document. During a specific meeting, the clings could be applied on the opposite side and the inside can be written on. Words, grids, prompts, empty writing space dedicated HDCLing for specific team needs to address goals and project outlines.

Benefits of HDCling

- Super strong, optically clear 6-mil film
- Rolled properly while stored, the film will cup the glass when squeegeed on
- Simulated whiteboard applications are endless
- Easily installed with alcohol water, and a shower squeegee
- Available in 60" widths and can be custom cut to any shape
